

Xiaolong Yang
Director of the Market Risk Analysis Division

Xiaolong Yang is Director of the Market Risk Analysis Division (RAD) of the Office of the Comptroller of the Currency (OCC).

In this role, Mr. Yang oversees financial economists and quantitative modeling experts in the division who advise bankers, policy makers, and OCC senior management on quantitative modeling and analytical issues in the areas of derivatives trading, market and counterparty credit risk management, and investment and asset-liability management. He was appointed to this position in 2012.

Prior to this position, Mr. Yang served as Deputy Director of Market Risk Analysis since 2008. He previously served as a financial engineer for Fannie Mae and Freddie Mac for seven years. Before working for those agencies, he spent some years as a research scientist after earning a Ph.D. in aerospace engineering.
